About Shriya

Following the success of her releases with Sony Music India (Day One)—including On My Mind and Ride for Me, which resonated with young audiences and surpassed 300,000 streams – Shriya returns bolder, more honest, and more vulnerable than ever.

With ten original tracks to her name and over 50 performances at prestigious venues across Mumbai—from the Royal Opera House to the NMACC—Shriya continues to carve out a space in music that's as intimate as it is inclusive.

Her latest EP, In a box, gives voice to heartbreak, loss, and the growing pains of self-discovery, staying true to her mission: to make music that feels like a friend.

"Music is the one thing that keeps me going. It's always there when I need it." she says.

Through every note, Shriya offers that same comfort to her listeners – whether they're falling in love or finding themselves.
